

Grant Haze

Architectural Ironmongers & Builders Merchants

Building Materials &
Site Welfare Supplies
Catalogue

Welcome to our new catalogue

There are hundreds of products featured, the majority of these are available for immediate despatch to you. New products are being introduced throughout the year so if you do not find the product that you are looking for then please call us as we may still be able to help you.

One of the regions largest distributors of building supplies, architectural ironmongery, site welfare and signage. The success of the company is due to a sincere enthusiasm to supply quality products at a competitive price, with excellent service.

Grant Haze limited has been established since 1984. Although a relatively young company we have quickly built up a reputation for providing a highly efficient service backed with a competitive pricing structure. Our staff offer a combined wealth of knowledge totalling totally over 100 years experience within the building industry

Grant Haze is dedicated to offer genuine choice of products. We give independent, impartial advice to all of our customers which ensure that you get the right product at the right price. No enquiry is too big or too small and no matter what you need please just ask.

We offer an excellent delivery service on all ex-stock products, which is further supported by a strong stock-holding giving you the service that you need.

**Highly Competitive Prices
Specialist Knowledge**

**Next Day Delivery
Trade Counter**

GH Supplies London Limited offer a wide range of products to the specialist interiors industry which include ceilings, dry lining, partitioning, insulation, fire protection and lighting. We hold from stock a wide range of products from leading manufacturers at competitive rates.

Our wide range of products is backed by members of staff who are committed to giving you the best possible service in putting you first.

Ceilings - we stock a comprehensive range of mineral fibre, metal and plaster tiles along with grid systems and accessories from leading manufactures including USG, Armstrong and British Gypsum.

Drywall - we offer a wide range of dry lining solutions from Knauf drywall & british Gypsum.

Partitioning - we offer a range of fire rated & non fire rated solutions. we also offer a specialist range including silicone joint glass partitions.

Fire Protection & Insulation - a range of roll, slab and board insulation and fire protection.

Lighting - a range from cat 2 lights to prismatic lens.

Above all we pride ourselves on the service that we offer you in meeting your needs.

AD MIXTURES

Febmix Plus

For bricklaying and pointing mortars
Minimises cracking and crazing
Easier, faster mortar speed
Enhances workability and freeze-thaw resistance
Ambient temperature: down to 1
Available in 5, 25 and 205 litres

DESCRIPTION	CODE
Febmix Plus	FEBPLUS

Febond SBR

Latex admixture
Waterproofing and concrete repair bonding agent
Surface primer and concrete repair admixture to increase water and abrasion resistance
Prevents bleeding
Lower water-cement ratio
Excellent adhesion to concrete and steels
Sticks well to brick, glass and most building materials
Available in 5, 25 and 205 litres

DESCRIPTION	CODE
Febond SBR	FEBONDSBR

Rendamix

Set render and plasticiser
For cement renders requiring longer open times
Improves water resistance
Reduces water bleed
Waterproof
Improves durability and enhances insulation
Available in 5, 25 and 205 litres

DESCRIPTION	CODE
Rendamix	FEBRENDAMIX

Febproof Plus

Water resistant plasticiser
Mortars, screed and non-structural concrete
Surfaces stay cleaner longer
Improves weathering properties and frost resistant
Replaces lime, waterproof and cracking
Available in 5 and 25 litres

DESCRIPTION	CODE
Febproof Plus	FEBPROOF

Febspeed

Rapid hardener
Non-structural concrete and plugging
Mortars
Minimises downtime of paths, floors, drives and economical in use
Optimises mould usage
Available in 5, 35 and 205 litres

DESCRIPTION	CODE
Febspeed	FEBSPPEED

Febfloor

Febfloor is a cementitious floor levelling and smoothing compound in powder form requiring only the addition of water
Self smooth and easy to use
Sets hard within 2-3 1/2 hours depending on temperature
The floor to be treated must be free from dust, loosely adhering materials and any contaminants which may prevent adhesion

DESCRIPTION	CODE
Febfloor	FEBFLORPLUS25

Febond PVA

Sealer and bonding agent
Multi-purpose primer; adhesive and surface sealer
Excellent adhesion for most building materials
Excellent sealer coat - internal only
Admixture for mortar

DESCRIPTION	CODE
Febond Pva	FEBONDPAVS

Aquaseal

Hyprufe damp proof liquid Membrane
Suitable for below grade waterproofing and protection of concrete and other substrates. Also used as a liquid applied damp proof membrane under floor screeds
Available in 2.5, 5 and 25 litres

DESCRIPTION	CODE
Aquaseal	AQUASEALHYP

Wintamix

Frostproofer and plasticiser
Mortar admixture for winter use
Freeze thaw-resistant
Accelerates initial set
Available in 5 and 25 litres

DESCRIPTION	CODE
Wintamix	FEBWINT

Febmix Admix

For bricklaying and pointing mortars
Minimises cracking and crazing
Replaces lime in bricklaying/plastering mortars
Improves durability and cuts waste
Available in 5, 25 and 205 litres

DESCRIPTION	CODE
Febmix Admix	FEBADMIX

More admixtures available please call for more details

Plastic Access Panels

To provide simple, easy access through dry lined walls, ceilings, ducts and units to gain access to concealed plumbing, switches, valves, stopcocks, fuse boxes, controls and connections

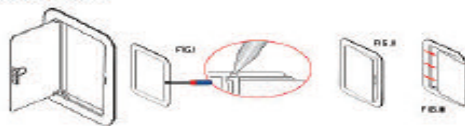

**Manufactured to
BS EN IO 9001 : 2000**

Available in white
Colour options are available
on request

- n Purpose made product saves time and money compared to traditional joiner-made or steel access doors
- n Excellent aesthetic appearance
- n Factory finished and simple to fit
- n Fully removable panel for easier access
- n Textured finish allows painting
- n Key lock version available

Extensive selection available please call for more details

AP110 PLASTIC ACCESS PANEL

Installation Advice

- n Cut hole to size, making sure it is straight and level
- n Apply silicon or other suitable building grade adhesive to back of frame
- n Check which way you want the door to hinge
- n Press panel firmly into place, checking it is straight and level
- n Do not operate until adhesive has set completely
- n To open door, use screwdriver in slot and lever up (Fig i)
- n To remove door, open door slightly, pull door away from the hinge position maintaining door at a slight angle (Fig ii)
- n To replace door, reverse removal process (Fig iii)

ACCESS PANELS

Features and Benefits

- Purpose made product saves time and money compared to traditional joiner-made access doors
 - Excellent aesthetic appearance
 - 60 minute fire rating on selected range
 - Smooth finish allows painting
 - Key lock version available
 - Picture frame or beaded frame options available
- No insulation and draught strips

Steel Access Panels

Fire rated and non fire rated purpose made panels for access to controls and fittings

The door and frame are formed from 1.2mm Zintec electro galvanised mild steel

Available in polyester powder coat in white

Fired Rated

Product code	Description	Opening sizes required hole fitting
APC300x300FR	Hinged Access Panel	310x310

Material and Colour Choice

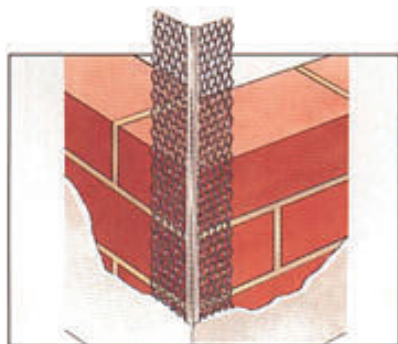

- The door and frame are formed from 1.2mm Zintec electro galvanised mild steel

Available in polyester powder coat in white

Products in this System

- 60 minute fire rated steel access panels with picture or beaded frame
- Non fire rated steel access panels with picture or beaded frame
- Non fire rated 'contract range' with less substantial frame and door to standard range

ANGLE BEAD & ARCH FORMERS

PLASTER BEADS FOR INTERNAL USE ONLY

ANGLE BEAD (PRE GALVANISED STEEL)

Provide a true, straight corner which protects and reinforces plaster where it is most vulnerable

One size adjusts for thickness

Stock Lengths: 2400 & 3000mm

DESCRIPTION

Angle Bead (Pre Galvanised Steel)

CODE

558

PLASTER STOP BEAD

(PRE GALVANISED STEEL)

Finishes and reinforces

plaster edges

CODE

FLATPK(Size)

RAWL BOLTS & DYNA BOLTS

Dynabolt Plus is a thin walled sleeve anchor suitable for use in most types of concrete and masonry
Rawl Bolt is a torque controlled shield anchor suitable for use in concrete and solid brickwork
Sizes available on request

CAVITY CLOSERS/CAVITY TRAYS

THERMO-LOC PLUS CAVITY CLOSERS

Higher insulation closers for eliminating damp and 'cold bridging' around doors, windows and sills

Features and benefits

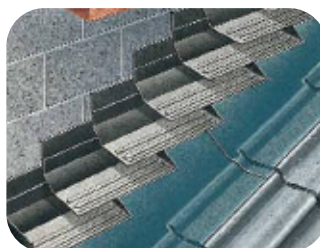

- Provides an effective DPC and thermal barrier between frame, inner and outer wall leaf
- Exceeds the minimum thermal resistance path of 0.45m²K/W stipulated in Robust Details 'limited thermal bridging and air leakage'
- Rigid profile extrusion allows both first and second fix
- Components available to make up 'on-site' frame formers
- Suitable for all frame and sill positions (see fig.1)
- Integrated & flexible water strip to reduce air leakage
- Durable and resistant to decay
- Simple on-site trimming to cope with 'rogue' cavity widths
- Better insulation properties than standard Polystyrene
- Low ECO Points rating

EVERDRY CAVITY TRAYS

Stepped cavity tray system for brick wall construction of 75mm course heights

Products in this system

- Stopped Starter Tray
- Corner Starter Tray
- Intermediate Tray
- Ridge Tray

PVC
PREVENTS DETERIORATION IN BUILDING
STRUCTURES CAUSED BY WATER PENETRATION

- n Cost effective damp proof course for domestic construction
- n Embossed to assist mortar adhesion
- n Proven performance over many years
- n Manufactured from highest quality reprocessed materials
- n Remains flexible - even at low temperatures
- n Safe and clean handle
- n Conforms to the requirements of BS 6515
- n Suitable for use in horizontal & vertical applications throughout domestic construction

Joint tape available

ECO PRODUCTS

WALL MOUNTED RACK

Wall mounted cycle holder holds up to 2 cycles (40kg)
The rack has protective cycle support mountings and is lockable with a cable lock (not supplied)
Easy to fit

DESCRIPTION	CODE
Wall Mounted Rack	BIKEWM

'R' Mounted Rack

Wall mounted cycle holder for one cycle with brackets for 10mm bolts

Available in two fixed settings of 90 deg or 45 deg to the wall

DESCRIPTION	CODE
90 Degree Rack	BIKER90
450 Degree Rack	BIKER45

'R' Five Cycle Rack

Wall mounted cycle holder as above 'R' rack but holds five cycles at 90 degrees

Supplied in one section made of mild steel tube, bar and plate, galvanised
Overall length of rail 2500mm
Fixing holes at 1170mm centres
Six bolts are required and are extra

DESCRIPTION	CODE
5 Cycle Rack	BIKER90FIVE

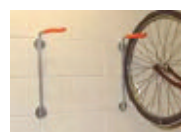

SHEFFIELD CYCLE STAND

Sheffield style cycle stands are made of mild steel tube of o.d. 48mm
Height above ground 750mm and the length 800mm overall
Ragged version 300mm below ground
Three 12mm bolts required per flange (6 per stand)

DESCRIPTION	CODE
Ragged Version	BIKESHEFR
Flanged Version	BIKESHEFF

Vertical Holder

Ideal for indoor use where space is at a premium and where security is not an issue
Wall fixed at any height with an end hook designed to fit between the spokes

DESCRIPTION	CODE
Vertical Holder	BIKEVERT

MULTI SPLIT SPACE SAVER

Glass mineral wool insulation rolls suitable for providing thermal and acoustic insulation in domestic type pitched roofs. Available in 100mm, 150mm and 200mm thickness

Acoustic and Floating Floor Systems now available ask for details

Kingspan Insulation

Available in different sizes and types such as Kooltherm, Styrozone and Therma. Kingspan meets exact requirements of the construction industry and are produced to the highest standards including BS EN ISO 9001 : 2000 and I.S. EN ISO 9001 :

Rockwool Insulation

Rockwool Roll is a medium density multi-use insulation matt. It is a semi perforated roll guiding the user to accurate cut widths of 400mm, 600mm or 1200mm from one product. The versatile roll is suitable for thermal insulation of roof spaces in domestic commercial and industrial buildings. It is also useful for improving the acoustic performance of suspended ceilings.

Other Insulation

Cavity Stop Socks 90 x 120 x 1200mm and 115 x 120 x 1200mm

Cavity Batts 50mm, 75mm and 100mm

Jablite (Information available on request)

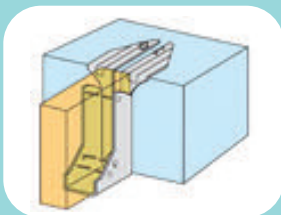

Cavity Closer 50mm, 75mm, 90mm and 100mm
In lengths of 2.4mtr or 3mtr

SPH JOIST HANGERS

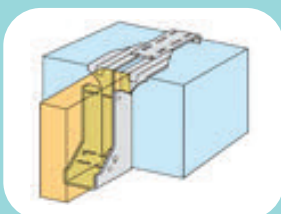

Standard

Type S is a single piece, non-weld joist hanger for the support of timber joists built into all types of masonry

Straddle

Two Standard joist hangers joined together with jointing plates fixed by riveting

Return

Standard Type 'S' with Return Plate added, fixed by riveting

Joist Hanger

Total support system includes a standard, return and straddle version
The SPH has been designed to present over twice the usual area of flange to the top side of the block on which it sits
It greatly reduces the point loading on lightweight blocks making it suitable for use with even the lightest 2.8 N/m² blocks

Height available from 1000mm-250mm

Width available from 38mm-150mm

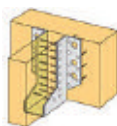

STANDARD LEG SPEEDY

Available in 38, 45, 50, 63, 75 and 100mm joist widths
Also available in long leg

LONG LEG SPEEDY

Medium duty 225mm maximum joist depth
Suitable for underslung joists (maximum 100mm drop)

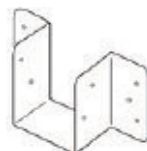

MAXI SPEEDY

MS240
joist width 38mm to 100mm
MS335
joist width 38mm to 100mm
MS380
joist width 38mm to 100mm
MS500
joist width 38mm to 150mm
MS560
joist width 38mm to 150mm
MS620
joist width 38mm to 150mm

SPEEDY MINOR

Provides a quick and safe method of timber joist support and trimming for light duty applications
100mm maximum joist depth to be supported
Available in 35 and 50mm joist widths

Further lines available - request expamet catalogue

JOIST HANGERS/METALWORK

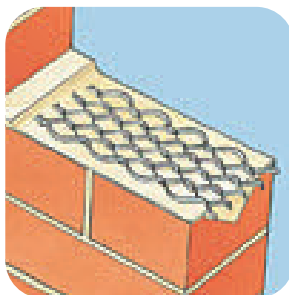

Angle Bracket

Available in two types, light and heavy duty
LD60, HD9090,
HD15090 and
HD150150

Splice Plates

Are suitable for
butt joining
timber of similar
cross section to
give an in-line
connection
Types L61, L80
and L98

EXMET REINFORCEMENT

Available in five coil widths, all 20m long
Width size available in 65, 115, 175, 225 and 305mm
Availability Galv and Stainless Steel

Truss Clips

Truss Clips
eliminate all the
disadvantages of
skew nailing and
provide a
positive fixing on two planes.
Available in 38 and 50mm
joist widths

Standard Strap Vertical

Can be straight
or with a bend,
twist or both
2.5mm and
5mm thick
Different lengths available

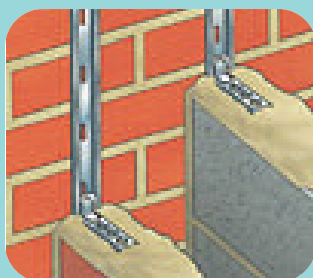

Multi Purpose Fixing Band

MFBA 10m x
20mm x 1.0mm

Further lines available - request expamet catalogue

MULTI STARTERS

MSSS (Stainless Steel) for wall thickness up to 250mm

Bat-U-Nail Plate

Bat-U-Nail is a plate system
which enables timber structures
to be made on site or in the
builders workshop, since it is
nailed by hand

- n Manufactured from 0.9mm
pre-galvanised mild steel to BS
EN 10142 : DX51D + Z275
- n Widths: 76, 114 and 152mm
- n Lengths: 51, 100, 152, 203,
254, 305 and 354mm
- n Various quantities per box

LOFT ACCESS

- n High quality products for access to lofts in all types of dwelling
Lockable option is available
- n Available in white only
- n Maintenance free, no need to paint
- n Insulated door panel
- n Hinged design allows use of telescopic ladder
- n Meets all relevant British Standards

Product code	Description	Joist opening size required	Clear opening size	Insulation U value
PI169	Hinged door	562mm x 662mm	526mm x 626mm	0.82 W/m ² K
PI169KEY	Hinged with key lock	562mm x 662mm	526mm x 626mm	0.82 W/m ² K

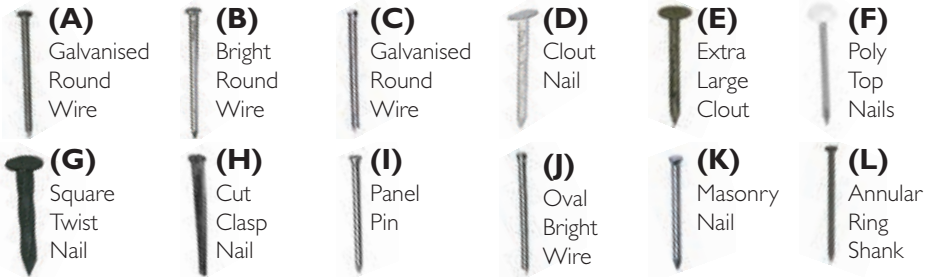

- n Easy to install for access to lofts in all types of dwelling
 - n Available in white only
 - n Maintenance free, no need to paint
 - n Insulated door panel
 - n Hinged design allows use of telescopic ladder
 - n Meets all relevant British Standards
 - n Satisfies all NHBC requirements
 - n Manufactured to BS EN ISO 9001 : 2000
 - n Complies with Building Regulations document L1A 2006
- Meets all relevant British Standards

PAINTING & DECORATING

For all your painting needs we offer a wide range of undercoats, primers to gloss and emulsions

PAINT ROLLERS

Emulsion paint rollers complete with frame and tray available in 7" and 9"
Radiator roller with frame in 4"

Paints

Branded and non branded paints from 2.5lts up to 10lt tins for interior and exterior use are readily available to order

For a full listings of paints please ask

White Spirit

2lt white spirit for cleaning brushes

DESCRIPTION	CODE
White Spirit	WHITESPIRIT

Paint Kettle

Galvanised paint kettle 7" diameter

DESCRIPTION	CODE
Paint Kettle	PAINTKETTLE

Decocaulk 310ml

Acrylic filler & sealant
Suitable for use as a decorators filler and sealant

DESCRIPTION	CODE
Decocaulk	FEBDECO

PAINT BRUSHES

Standard paint brushes available in sizes 1/2", 1", 1 1/2", 2", 3" and 4"

Professional paint brushes available in the above sizes

PAINTING & DECORATING

TAPES

Black T44 low tack 2" black T44 low tack tape suitable for masking window frames etc before painting.
Masking tape available in 1", 2", 3"

DESCRIPTION	CODE
Black Tape	TAPET44
Masking Tape	TAPEMASK

Wood Glue

PVAC3 water resistant 1lt wood adhesive
Suitable for adhering most types of wood

DESCRIPTION	CODE
Wood Glue	GLUEWOOD1LT

Accessories

Decorators sponge & 3" paint scraper

DESCRIPTION	CODE
Sponge	SPONGE
Paint Scraper	SCRAPERHAND

Sanding Paper

Grit paper on a 10m roll
Available in three grades 60, 80 and 120

DESCRIPTION	CODE
Sanding Paper 60	SANDPAPER60
Sanding Paper 80	SANDPAPER80
Sanding Paper 120	SANDPAPER120

Overshoes

Disposable blue overshoes
(pack 50 pairs)

DESCRIPTION	CODE
Overshoes	OVERSHOE

Brick Cleaner

Brick acid cleaner in 5lt
Suitable for cleaning most brickwork and paving and patios

DESCRIPTION	CODE
Brick Cleaner	BRICK

Pole Sander Grit Paper

Pole sander complete with wooden handle
Grit paper to suit available in 100 & 120 grade in packs of 25

DESCRIPTION	CODE
Pole Sander	POLESAND
Grit Paper 100	SANDP0100
Grit Paper 120	SANDP0120

Painters Bib & Brace

Cotton white painters bib & brace available in various sizes

DESCRIPTION	CODE
Bib & Brace	BIBBRACE

WOOD FILLER

Ronseal 1kg two part high performance wood filler in natural colour
Strong, fast, flexible and fills deep holes indoors and outdoors

DESCRIPTION	CODE
Wood Filler	WOODFILLER

Extensive range of decorating products available

DPM & TPS

Prevents Moisture Penetration from floors

Visqueen PIFA Damp Proof Membranes have a proven track record in preventing moisture penetration from floors over many years

PIFA Standard 6/83A is widely recognised as the premium quality standard for damp proof membranes

In establishing key performance criteria for damp proof membranes such as thickness, puncture and tear resistance, the PIFA Standard ensures a consistently high quality membrane. Visqueen PIFA Damp Proof Membrane is available in Black.

- Conforms to PIFA standard 6/83A:1995
- High puncture resistance
- Proven performance over many years
- Withstands rough site handling
- Comprehensive range to satisfy most site conditions
- Manufactured from the highest quality reprocessed materials

PROTECTION MATERIALS

CARDBOARD FLOOR PROTECT

Hard wearing slip resistant and water resistant multi purpose breathable floor card available on a 100m x 1m roll

DESCRIPTION	CODE
Cardboard Floor Protect	FLOORPROTECT

2" black or silver gaffa tape to be used with the card

DESCRIPTION	CODE
Tape	TAPEGAFFA

CORRUGATED PROTECTION BOARD

Fluted polypropylene 2.4m x 1.2m black sheets
The protection board gives an excellent degree of impact resistance to almost any surface and can be cut and shaped without losing strength, enabling all types of surfaces to be protected
Also available in clear and in white fire retardant

CARPET PROTECTION

Clear carpet protection available in 600mm x 25m and 1200mm x 100m rolls
Self adhesive, waterproof backing for protection for carpets

Stair Tread Protection

Temporary reusable protection with excellent grip and impact protection for stair tread and nosing
Available in round nosing 600 x 150mm and square nosing 900mm x 260mm (please specify)

DESCRIPTION	CODE
Round Nosing STAIRROUND (round nosing)	
Square Nosing STAIRROUND (square nosing)	

Door Frame Protection

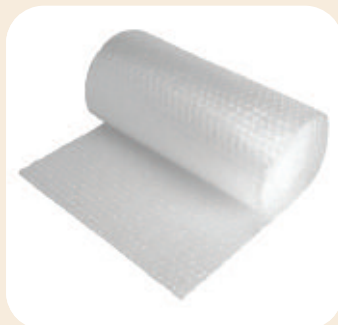

Multi use heavy duty fire retardant foam tube door protectors
Fits up to 200mm wide door jambs and can be easily cut to size
Suitable to protect door jambs and other sensitive fittings from impact damage
Available in 2m lengths

DESCRIPTION	CODE
Door Frame Protection	DOORJAM

Bespoke protection catalogue available

PROTECTION MATERIALS

BUBBLE WRAP

Protective small bubble 1200mm x 100mm bubble wrap
Suitable for many applications to give a protective covering or simply to pack out
Also available is a fire retardant roll at 1500mm x 100m

DESCRIPTION	CODE
Bubble Wrap	BUBBLEWRAP (non fire retardant)
Bubble Wrap	BUBBLEWRAPFR (fire retardant)

Dust Sheets

Cotton 12' x 9'
dust sheets for
temporary protection

DESCRIPTION	CODE
Dust Sheets	DUSTSHEETCOT

Hessian

Hessian
protection on
a 50 yard run by approx 54"
wide used to protect against frost
and the cold

DESCRIPTION	CODE
Hessian	HESSIAN

Cable Ties

12" cable ties in
pack of 100 suitable for tarpaulins
6" also available

DESCRIPTION	CODE
	CABLE

Window Protection

Temporary
protection for
glass which
protects against
scratches, paint &
mortar splashes
Offers a one part solution, simply
roll out and press into position
and when removed leaves the
glass clean enough to handle over
Available in a 600mm x 100mm
roll in clear or blue (please specify)
Also a dispenser to suit is available
as a special order

DESCRIPTION	CODE
Window Protection	WINDOWPROC

2" black T44 low
tack tape suitable
for masking
window frames
etc before painting

DESCRIPTION	CODE

TARPAULINS

Blue woven polyethylene eyeleted general purpose tarpaulins
available in 18' x 12' size
Larger sizes also available on special order

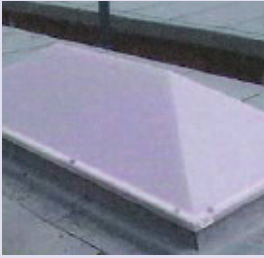

Multi sheet waterproof reinforced tarpaulins for heavy duty
applications where the general purpose tarpaulin is not suitable
Extremely strong and durable complete with eyelets to give
numerous fixing options
Available in various sizes ranging from 3m x 4m up to
12m x 4m (please ask for more details)

DESCRIPTION	CODE
Tarpaulin	TARPAULIN18X12

ROOFLIGHTS

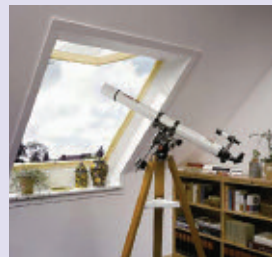

Naturalight Systems Ltd manufacture and install high quality rooflights and kerbs to the building industry. Naturalight can adapt to any type of onsite condition and manufacture the finest quality materials, along with state of the art computerised manufacturing process.

**FREE SITE VISIT AVAILABLE UPON
REQUEST PLEASE CALL FOR A FREE
NO OBLIGATION QUOTE**

Velux high quality rooflights available to order. Please request manufacturers brochure for a full range. Accessories and flashing kits also available.

SCREWS (GENERAL)

TWINQWIK COUNTERSUNK

TwinQwik thread wood screws available in zinc plated and stainless steel
TwinQwik woodscrews have twin threads

FASTASCREW SLOTTED COUNTERSUNK

Fastascrew woodscrews have twin threads, a reduced diameter shank and are hardened and plated
For the traditionalist who prefers a slot to a recess but wants the benefits of a hardened twin thread, then this is the screw to choose
Twin threaded screws are less likely to split the wood and give better grip especially in man made boards such as chipboard
Fastascrews can usually be used without a pilot hole

ROUND HEAD SLOTTED

Traditional quality slotted steel woodscrews have a full diameter shank, a single thread and they are unhardened
A full shank is important where "dowelling" effect is required to restrict movement of a component (such as a hinge) if the screw loosens slightly

BRASS COUNTERSUNK SLOTTED

If your using brass fittings, then you should use solid brass screws
Brass plating only give a decorative finish and often little or no resistance to corrosion

HARDENED STEEL WOODSCREWS

SCREWS (DRYLINING)

Waferhead Drywall Screws

Waferhead corrosion resistant self-tapping zinc plate steel screws with wafer cross-head. Designed for assembling metal system components where minimal disruption of plasterboard lining is desirable.

Waferhead Jackpoint Screws

Waferhead Jackpoint screws are similar to wafer head screws but with self-drilling points. Used for assembly of light gauge steel components.

75mm	500	500
100mm	500	500

Jackpoint Drywall Screws

Corrosion resistant self-tapping zinc plated steel screws with countersunk cross-heads. Ideal for fixing plasterboard to stud framing 0.8mm thick or greater and 'I' studs greater than 0.55mm thick. The length of screw selected for a given boarding configuration should be sufficient to give a nominal 10mm penetration into metal framing.

Traditional Dry Wall Screws

High quality zinc plated and black phosphate specially designed screws for fixing drywall panels to wood and metal stud.

A further selection of screws are available on request

SCREWS & PLASTERBOARD FIXINGS

TIMBER DECKING SCREWS

Screw Size	Box Qty
To secure 25mm deckboards to sub-frame use: 8 x 2 Dec-Top screws	200
To secure 32mm deckboards to sub-frame use: 8 x 2 1/2 Dec-Top screws	150
To secure 38mm deckboards to sub-frame use: 10 x 3 Dec-Base screws	100

DECKING SCREWS

Dec-Top and Dec-Base screws have been purpose designed for outdoor timber decking applications. The coarse thread grips effectively in the tanalised timber boards which are normally used when constructing decks. The special steel used in manufacture ensures a high strength fixing by increasing torsional strength.

A further selection of screws are available on request

Red & Brown Plugs

To Suit Screw Size	Red Plugs Box Qty	Brown Plugs Box Qty
6g to 10g	1000	-
10g to 12g	-	1000

Wall Plugs

Red plugs are made from tough high density polythene which provide a secure wall fixing.

PLASTERBOARD FIXING

For fixtures to plasterboard and hollow surfaces

Please call for details

SELF TAPPING SCREWS

Self Tapping Screws tap their own thread in a pre-drilled pilot hole in sheet metal. They are made to BS7496 (formerly BS4174) and are single threaded and hardened. They are available slotted or recessed (plusdriv).

SEALANTS & ADHESIVES

Decocaulk 310ml

Acrylic filler & sealant
Mono-component acrylic
polymer emulsion
Suitable for use as a
decorators filler and sealant

DESCRIPTION	CODE
Decocaulk 310ml	FEBDECO

Genuine Gripfill 380ml

High performance, general
purpose, gap filling adhesive
Wood, laminated plastic,
brick, metal and
plasterboard can all be
bonded using gripfill

DESCRIPTION	CODE
Genuine Gripfill 380ml	GENGRIPFILL

Nail Free Fixing 310ml

Multi-purpose gap
filling adhesive, easy to use
Solvent free with an
instant grab
Suitable for interior and
exterior use

DESCRIPTION	CODE
Nail Free Fixing 310ml	FEBNAILFREE

Handyfoam 750ml

Fire rated foam filler,
sealant, adhesive
and insulator
Instantly expands into gaps
and around pipes
Also available non fire
rated in a 500ml can

DESCRIPTION	CODE
Handyfoam 750ml	HANDYFOAM
Handyfoam (non fire rated)	FOAM500

Multiseal Silicone Sealant 310ml

High modulus general
purpose silicone sealant
ideal for various surfaces,
including glazing, ceramics,
bathrooms or as gap
filling adhesive
Available in white, clear, brown
and black

DESCRIPTION	CODE
Multiseal 310ml	FEBMULTI

Prosil Silicone Sealant

Silicone sealant for
glazing and a wide
variety of jointing and
sealing application
Available in white & clear

DESCRIPTION	CODE
Silicone Sealant	MULTISEAL

Foam Gun Grade & Cleaner 750ml

Screw on foam for use
with mounting, sealing,
filling and insulation in
building applications
Use with foam gun
ensures precision, speed
and foam efficiency
Thermal and acoustical insulation
The foam cleaner is used for the
cleaning of can valves and gun
applicators

DESCRIPTION	CODE
Foam	FOAM (expanding foam)
Foam Cleaner	FOAMCLEANER (cleaner)

Intumescent Mastic

Acoustic intumescent
mastic for external or
internal use designed
for sealing gaps around
door frame in white

DESCRIPTION	CODE
Intumescent Mastic	INTUMASTIC

A further selection of sealants & adhesives
are available on request

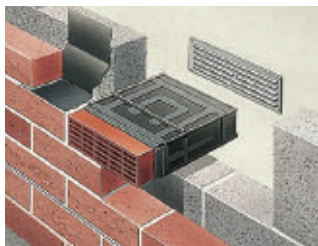

FOAM GUNS

Gun for foam grade & cleaner

DESCRIPTION	CODE
Foam Gun	FOAMGUN

VENTILATION

Cavity Sleeves

Tough, flexible ventilators for external walls

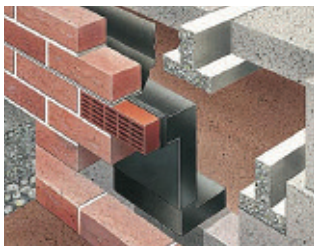

Available in sizes

9" x 3" Cavity Sleeve
(Single Airbrick)

9" x 6" Cavity Sleeve
(Two Airbricks Stacked)

9" x 9" Cavity Sleeve
(Three Airbricks Stacked)

Telescopic Underfloor Ventilator

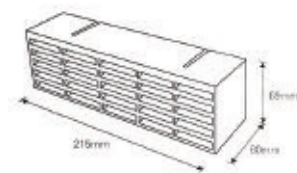

Tough, adjustable ventilator to provide ventilation below suspended ground floors

Free airflow 6000mm²

Available in black only

Extension Pieces are available on request

Airbrick

Effective airbrick ventilator

Available in buff, terracotta, grey, brown and black

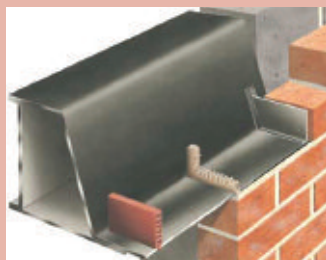

Integral clip together facility allows multiple airbricks to be stacked to form 9"x6" and 9"x9" sizes

CAVITY WALL WEEPS

Multi function products for discharging water from external walls

I143 A cavity wall weep/vent specifically intended for use with standard brickwork, block or stone external walls of thicknesses between 100-225mm

TW1 A special low profile cavity wall weep specifically intended for use with standard brickwork, block or stone external walls of thicknesses between 100-102.5mm

Push In Soffit Vent

Efficient, circular ventilator

Available in white, black and brown
70mm diameter

Provide a free airflow of 1600mm² per unit should be spaced at 160mm centres to achieve ventilation equivalent to a continuous 10mm opening

DESCRIPTION

Push In Soffit Vent

CODE

I140 (White) I141 (Black) I142 (Brown)

Soffit Vent Type C

Efficient, strip type ventilator

Available in white and brown

For roof eaves ventilation

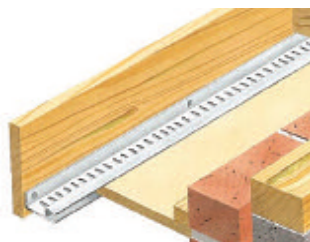

Vent Type: Slot

DESCRIPTION

Soffit Vent Type C

CODE

I137 & I138

VENTILATION

Tyvek®

Tyvek® Supro is an extremely durable and flexible sheet material, for use as roofing underlay in pitched roof construction, it can be incorporated into all tiled or slated pitched roofs, whether they be new-build or refurbishment projects

As a secondary water shedding layer

Tyvek®membrane will provide a barrier to minimise the wind load acting on the slates and tiles and will adequately resist wind blown snow and dust from entering the roof construction

Tyvek®membranes are suitable for use as roofing underlays as defined in BS 5534: Code of practice for slating and tiling

Tyvek®membranes are also suitable for use in metal clad industrial roofs

Roll length is 1m x100m Weight of product is 13kg

Novia

Novia Grade B2 is a clear polythene coated kraft paper manufactured to BS 1521 class B2

It is used for temporary protection jobs and break layer applications

The product is water, grease and solvent resistant

Size available: 1000 mm x 100 m

The product meets the technical requirements of BS 1521 Class B2 for water-proof building papers

Wet burst strength.....> 140 KPA

Sisalkraft

Sisalkraft 40 Breather is recommended for use as a vapour permeable sheathing membrane which is water resistant and water repellent. It is used as a weatherproofing layer behind exterior cladding to provide an extra barrier

Sisalkraft 40 Breather is processed from a kraft paper pulp, impregnated with water repellent chemicals

The material has a matt blue surface both sides, with smooth texture

WALL TIES

HRT4 Type 4 tie (Masonry Light Duty)

The Staifix HRT4 is a housing tie suitable for cavities from 50mm to 100mm in domestic houses up to 10 metres in height. Staifix HRT4 has BBA approval and meets the technical requirements of the NHBC. Independent tests have proven the Staifix HRT4 has a measured dynamic stiffness of $<4.8\text{MN/M}^3$ at a 50mm cavity and is therefore suitable for separating (party) walls. The HRT4 can be used with all approved robust details for cavity masonry separating walls, whether traditional or thin-joint blockwork. Use of these details eliminates the need for pre-completion sound testing.

Lengths: 200, 225mm (250 per box)

BUTTERFLY

Lengths: 200, 225, 250mm
(250 per bundle)

PPS

Lengths: 150, 200, 225, 250mm
(Each)

RT2 Type 2 tie (Masonry General Purpose)

The Staifix RT2 is a general purpose tie. It is suitable for cavities from 50mm to 125mm and can be used for domestic houses and small commercial buildings up to 15 metres in height. In many cases, Staifix RT2 wall ties can be used in buildings greater than 15 metres if shown to be adequate by calculation. For further information please contact Ancon's Technical Services Team. The Staifix RT2 has BBA approval and meets the technical requirements of the NHBC. The RT2 has a measured dynamic stiffness of $<113\text{MN/m}^3$ that meets the performance requirement of Approved Document E for use in external masonry walls.

Lengths 200, 225, 250mm (250 per box)

Debonding Sleeves

Debonding ties require 100mm embedment. A 120mm long sleeve will provide an allowance for movement and tolerance and will be suitable for most applications.

ANCON ST1 Type 1 Tie (Masonry Heavy Duty)

The Ancon ST1 is suitable for cavities from 50mm to 150mm and can be used for all types of buildings of any height, anywhere in the British Isles. The section that spans the cavity has a series of holes to provide water drips. This allows the same tie to be used in insulated cavities as well as open cavities. The ST1 has a measured dynamic stiffness of $<113\text{MN/m}^3$ that meets the performance requirement of Approved Document E for use in external masonry walls.

Lengths: 200, 225, 250, 275, 300mm (250 per box)

**Ancon

brochure**

WALL TIES

REFERENCE FOR WALL TIES

Many variations are available in addition to the standard wall ties
Wall ties for special applications may be specified using a reference letter for the tail, shank and head of the tie

Produced in lengths from 150mm for masonry-to-masonry ties, and 75mm for masonry-to-concrete ties, in increments of 25mm

INSULATION RETAINING CLIP

The red Insulation Retaining Clip will fit all the standard wall ties shown on the opposite page (sold per 1000)
80mm Diameter

HELIBAR

Reinforcing bar in 1m stainless steel lengths. Used for fast, effective, permanent and concealed crack stitching that is more reliable than simple crack injection methods
